

## How to Install

You'll need to use the Cloud version of the plugins to load this soundbank!

Follow these steps:

1. Unzip the .bin file and place it in a folder on your PC
2. Launch your DAW
3. Load an instance of the Roland Cloud plugin
4. Click the button labeled **"Patch"**
5. In the patch browser, click the **"Load"** button
6. Navigate to the .bin file you extracted in step #1 and click **Open**

Result: this will load up the entire bank of Tonework patches. You can use them in the plugin version now.

### For the Boutique and AIRA Hardware:

If you want to transfer one or more patches to your Boutique or AIRA Hardware synthesizer, either use the "Send All" command on the patch browser, or use the "Send" button to send patches to the Synthesizer individually.

At this point they can be transferred to your hardware. If you don't like the Cloud, you can just download the demo and mute the audio output of the plugin to use it as a librarian.

Patch#	Patchname	Info
1-1	VulcanVox RV	
1-2	DuoTone RV	
1-3	LA Bed RV

**License:**

Tonework sound packs remain the property of Tonework Productions. Upon purchase, the sound pack and sounds within are licensed to you as the original end-user ("Licensee").

All rights not expressly granted herein are reserved exclusively by Tonework Productions.

1. You may use the sound pack sounds in combination with other sounds in your own compositions (commercial or non-commercial).
2. The Licensee MAY NOT use the sounds in isolation as sound effects or within any competitive products that are sold or relicensed to multiple third parties. In these scenarios the Licensee must arrange an extension with Tonework Productions. Basically, don't re-use the sounds for other products or try to sell or distribute them without permission.
3. The right to use the sounds is granted only to the Licensee and is NOT transferable. This license expressly forbids resale, relicensing or other distribution of the sounds, either as they exist or any modification thereof. You cannot sell, loan, rent, lease, assign, upload to or download from any server, or transfer all or any of the enclosed sounds to another user, or for use in any competitive product.
